Administrative Information

- Provenance:** From internal evidence this collection appears to have been created from materials originally forming part of the Laymen's Foreign Missions Inquiry Records (LMFI), which were donated to the Missionary Research Library in 1933. In 1976 the records were accessioned to the Burke Library archives with the closure of the MRL. As they have existed as an independent collection of papers in the Japan Section of the Mission Archives for some decades, they have been retained separately from the main LMFI Records.
- Access:** Archival papers are available to registered readers for consultation by appointment only. Please contact archives staff by email to burkearchives@library.columbia.edu, or by postal mail to The Burke Library address on page 1, as far in advance as possible. Burke Library staff is available for inquiries or to request a consultation on archival or special collections research.
- Access Restrictions:** The collection is unrestricted to readers. Certain materials however are in a fragile condition, and this may necessitate restriction in handling and copying.
- Preferred Citation:** Item description, MRL 7: Christianity in Japan, series #, box #, folder #, The Burke Library at Union Theological Seminary, Columbia University in the City of New York.

History

The Laymen's Foreign Missions Inquiry was a major research project undertaken from 1930 - 1931 to study Christian mission work abroad. The Inquiry consisted of two stages. The first began in late 1930, when twenty-seven "Fact-Finders" were sent to India, China, and Japan by the Institute of Social and Religious Research to collect data on missionary work and local conditions. The Institute was also founded by Rockefeller, based on his belief in the application of scientific methods to the religious field, and it was directed by John R. Mott. Herbert Hugo Guy was appointed the regional director for Japan of the fact-finding arm of the LFMI.

Specialized research teams compiled extensive background information on missionary work in each of the countries before sending the Fact-Finders to spend five months in India, six months in Japan, and six and a half months in China. The second stage began in September 1931 with a "Commission of Appraisal." Please consult the Finding Aid for the Laymen's Foreign Missions Inquiry Records for further information on the history of the Inquiry.

Two volumes of reports were produced for each region: a volume of "Regional Reports" pulled together from many sources and edited by committee, and a volume of "Fact-Finders' Reports" with chapters on specific topics written by a single author or a pair.¹

Collection Scope and Content Note

The collection includes draft materials for the reports there were published in the supplementary volumes of the LFMI report, but also material that was too voluminous to be included in the published report.² Most of the material was written for the LFMI project, although some, newspaper articles and school programs for example, were collected for the project but not produced specifically for it.

Other similar material can be found in the main LFMI archival holdings at the Burke Library Archives, especially in subseries 1D. See the notes for each series for more detailed links to the LFMI collection.

Note that in many of the original sources, Japanese names are sometimes rendered in a Western style, with given name followed by the family name. In this document Japanese names will follow the East Asian standard, with the family name appearing first, followed by the given name.

The collection is organized in 9 series:

- **Series 1: McGruder Ellis Sadler Papers, 1927 - 1931 (1 box, 0.50 lin. ft.)**
This series contains papers related to the reports produced by Sadler for the LFMI. Sadler was born in 1896 in North Carolina, and earned his Ph.D. from Yale in 1929. He was selected as president of Texas Christian University in 1941, a position he held until 1959, when he became chancellor. He retired in 1965 and died the following year. Sadler contributed a chapter on religious education to the Supplementary Series of the LFMI's report.³ His papers are held in the Special Collections of Texas Christian University. Further material on religious education produced for the LFMI can be found in the main LFMI archival holdings at the Burke Library Archives, subseries 1D.
- **Series 2: Fred Roy Yoder Papers, 1930 - 1931 (2 boxes, 1.00 lin. ft.)**
This series contains material related to the reports produced by Yoder for the LFMI. Yoder was born in 1888 in North Carolina, and taught at the State College of Washington from 1920 until his retirement in 1954. He contributed a chapter on rural missions to the Supplementary Series of the LFMI's report.⁴

The main collection of his papers, circa 1890 - circa 1980 (20 lin. ft.) is held at Washington State University Libraries, Pullman, WA. Box 1, folders 15-30 in this series contain materials from the planning stages of the LFMI project, the remainder comprises data and unpublished materials from Yoder's report.

Further material on rural work in Japan can be found within The Burke Library Archives main LFMI records in subseries 1D, box 3.

² This includes "Other Data" that was not included in either the Regional Reports or the Fact-Finders' Reports, and was donated to the MRL for reference. See Petty, Vol. 3, Part 1, ix.

- **Series 3: Margaret Elizabeth Forsyth Papers, 1930 - 1931 (1 box, 0.25 lin. ft.)**
This series contains documents related to the reports produced by Forsyth for LFMI. Forsyth was born in 1894 and received an A.M. degree from Teachers' College, Columbia University. She taught at TC from 1922 to 1944, when she became the head of the foreign division of the YWCA. She retired in 1959 and died on July 29, 1971. Some additional material on Forsyth is to be found in the United Methodist Church archives at Drew University. She contributed a chapter to the Supplementary Series of the LFMI's report.⁵
- **Series 4: Christian Education in Japan, [192?] - 1931 (1 box 0.50 lin. ft. + 1 box OS, 2.25 lin. ft.)**
This series contains material related to Christian education produced for the LFMI. The main report was produced by Thoburn Taylor Brumbaugh, 1896 -1974, a Methodist minister based in Tokyo who was also a leader of the Japan International Christian University Foundation 1946-1958. There is some material on Brumbaugh in the United Methodist Church archives. The final report includes two chapters on Christian Education in Japan.⁶ Further material on Christian education in Japan can be found in the main LFMI holdings at the Burke Library Archives, subseries 1D, box 2-3.
- **Series 5: Harvey Hugo Guy and George L. Maxwell Papers, 1930 - 1931 (2 boxes 1 lin. ft.)**
This series contains material related to theological education produced by Guy and Maxwell for the LFMI. Guy was a member of the Christian Church (Disciples of Christ). He graduated from the Bible College of Drake University in Des Moines, Iowa, and went to Japan in 1893 with his wife. In 1906 he and Ishikawa Kakujiro, 1867 - 1930, founded Seigakuin Boys' Junior and Senior High School 聖学院中学校高等学校 in Tokyo. In 1909 he was appointed to Berkeley Bible Seminary, but was dismissed in 1912. He later worked at the Pacific Theological Seminary in Berkeley, CA.

Further material on Guy is to be found in the Benjamin Ide Wheeler papers, 1854 - 1927, held in the Bancroft Library of UC Berkeley. Guy was the director of the LMFII Fact-finders for Japan, and he contributed a chapter to the Supplementary Series in addition to his co-authored chapter with Maxwell.⁷

George L. Maxwell, 1896 - 1947, was an alumnus of Union Theological Seminary in New York City (class of 1927), field secretary for the National Council on Religion in Higher Education (1928-29) and later held senior administration positions at the University of Denver in Colorado. He co-authored a chapter in the Supplementary Series with Guy.⁸

He was also the editorial secretary for the "City Mission Work" section of the periodical *Baptist Home Mission Monthly*. He contributed a chapter to the Supplementary Series.⁹

Processing

Metal clips and staples were removed from materials and folded items were flattened. Materials were placed in new acid-free folders and boxes. Acidic items were separated from one another by interleaving with acid-free paper as needed. Any items in an advanced state of deterioration were placed in Mylar envelopes.
